LIST OF CONTENTS

Vol. 17, *No.* 1

Paul J. Dierickx	1	Soluble glutathione transferase isoenzymes in *Daphnia magna* Straus and their interaction with 2,4-dichlorophenoxyacetic acid and 1,4-benzoquinone
R. H. Dadd, J. E. Kleinjan and D. W. Stanley-Samuelson	7	Polyunsaturated fatty acids of mosquitos reared with single dietary polyunsaturates
F. Gasnier-Fauchet and P. Nardon	17	Comparison of sarcosine and methionine sulfoxide levels in symbiotic and aposymbiotic larvae of two sibling species, *Sitophilus oryzae* L. and *S. zeamais* Mots. (Coleoptera: Curculionidae)
Craig R. Roseland, Karl J. Kramer and Theodore L. Hopkins	21	Cuticular strength and pigmentation of rust-red and black strains of *Tribolium castaneum*. Correlation with catecholamine and β-alanine content
Josiane Girardie, Didier Boureme and Adrien Girardie	29	Production sites of the three neurosecretory proteins characterized in the corpora cardiaca of the migratory locust
J. E. Baker	37	Purification of isoamylases from the rice weevil, *Sitophilus oryzae* (L.) (Coleoptera: Curculionidae), by high-performance liquid chromatography and their interaction with partially-purified amylase inhibitors from wheat
Svend Olav Andersen and Peter Højrup	45	Extractable proteins from abdominal cuticle of sexually mature locusts, *Locusta migratoria*
David Morse and Edward Meighen	53	Biosynthesis of the acetate ester precursor of the spruce budworm sex pheromone by an acetyl CoA: fatty alcohol acetyltransferase
R. G. Bridges	61	Choline metabolism in larvae of *Pieris brassicae*
Minoru Osanai, Toshiro Aigaki and Hiroko Kasuga	71	Energy metabolism in the spermatophore of the silkmoth, *Bombyx mori*, associated with accumulation of alanine derived from arginine
Mishio Kawamura, Akira Wadano and Kazuo Miura	77	Purification and characterization of insect cathepsin *D*
Yuji Hirayama and Haruo Chino	85	A new method for determining lipase activity in locust fat body
Haruo Chino, Yuji Hirayama, Yukari Kiyomoto, Roger G. H. Downer and Koui Takahashi	89	Spontaneous aggregation of locust lipophorin during hemolymph collection
David S. Lester and Lawrence I. Gilbert	99	Characterization of acetylcholinesterase activity on the larval brain of *Manduca sexta*
Lorna Shampengtong, Kim Ping Wong and B. C. Ho	111	*N*-acetylation of dopamine and tyramine by mosquito pupae (*Aedes togoi*)
Naoki Goshima, Yoshio Takai, Takanori Tanaka, Hitoshi Yamada, Fusako Fukuda, Masami Sawada, Shingo Tsuyama, Akira Wadano and Kazuo Miura	117	Identification of 3-hydroxykynurenine, a non-enzymatic cytochrome *c* reductant in a blowfly, *Aldrichina grahami*
P. Willadsen, G. A. Riding and R. V. McKenna	127	Adenosine triphosphatases in the cattle tick *Boophilus microplus*
Kerstin Andersson and Håkan Steiner	133	Structure and properties of protein P4, the major bacteria-inducible protein in pupae of *Hyalophora cecropia*
Susumu Y. Takahashi	141	Studies on the phosphorylation of ovarian proteins from the silkworm, *Bombyx mori*. Identification of band 2 protein as egg specific protein
Casper Flyg, Gunnel Dalhammar, Bertil Rasmuson and Hans G. Boman	153	Insect immunity. Inducible antibacterial activity in *Drosophila*

T. J. Sliter, B. J. Sedlak, F. C. Baker and D. A. Schooley — 161 — Juvenile hormone in *Drosophila melanogaster*. Identification and titer determination during development

Klaus Peschke and Manfred Metzler — 167 — Cuticular hydrocarbons and female sex pheromones of the rove beetle, *Aleochara curtula* (Goeze) (Coleoptera: Staphylinidae)

S. Kikukawa, S. S. Tobe, S. Solowiej, S. M. Rankin and B. Stay — 179 — Calcium as a regulator of juvenile hormone biosynthesis and release in the cockroach *Diploptera punctata*

Don M. Wojchowski and Joseph G. Kunkel — 189 — Purification of two distinct oocyte vitellins and identification of their corresponding vitellogenins in fat body and hemolymph of *Blaberus discoidalis*

M. G. C. Carvalho and M. A. Rebello — 199 — Induction of heat shock proteins during the growth of *Aedes albopictus* cells

A. Jabbar, E. A. Dow and R. H. C. Strang — 207 — Aerobic amino acid metabolism in the locust nervous system

Jon G. Houseman, F. C. Campbell and P. E. Morrison — 213 — A preliminary characterization of digestive proteases in the posterior midgut of the stable fly *Stomoxys calcitrans* (L.) (Diptera: Muscidae)

A. B. Attygalle, O. Vostrowsky, H. J. Bestmann and E. D. Morgan — 219 — New chemicals from the Dufour gland of the formicine ant *Lasius niger* (Hymenoptera: Formicidae)

S. Scalia, A. Sbrenna-Micciarelli, G. Sbrenna and E. D. Morgan — 227 — Ecdysteroid titres and location in developing eggs of *Schistocerca gregaria*

Mahmoud F. Ali, Roger Cammaerts, Richard P. Evershed and E. David Morgan — 237 — A re-examination of the mandibular gland contents of *Tetramorium caespitum* (Hymenoptera: Formicidae)

M. Turchetto, E. Moretto and A. Dal Belin Peruffo — 243 — Enzymatic and protein patterns at different developmental stages in the cherry fruit fly *Rhagoletis cerasi* L.

Jacek R. Wiśniewski, Małgorzata Muszyńska-Pytel, Krystyna Grzelak and Marian Kochman — 249 — Biosynthesis and degradation of juvenile hormone in corpora allata and imaginal wing discs of *Galleria mellonella* (L.)

Vol. 17, *No.* 2

T. D. Morgan, T. L. Hopkins, K. J. Kramer, C. R. Roseland, T. H. Czapla, K. B. Tomer and F. W. Crow — 255 — *N*-β-alanylnorepinephrine: biosynthesis in insect cuticle and possible role in sclerotization

Kazuo Hoshikawa — 265 — Interconversion between glycogen and inositol in hibernating adults of a phytophagous ladybeetle, *Epilachna vigintioctomaculata*

Ken Irie, Zhong-Neng Xie, William C. Nettles Jr, Richard K. Morrison, Andrew C. Chen, G. Mark Holman and S. Bradleigh Vinson — 269 — The partial purification of a *Trichogramma pretiosum* pupation factor from hemolymph of *Manduca sexta*

Bryan S. Griffiths and Martin V. Cheshire — 277 — Digestion and excretion of nitrogen and carbohydrate by the cranefly larva *Tipula paludosa* (Diptera: Tipulidae)

Dino Rotondo, Peter F. T. Vaughan and John F. Donnellan — 283 — Octopamine and cyclic AMP stimulate protein phosphorylation in the central nervous system of *Schistocerca gregaria*

Thierry Haag, Marie-France Meister, Charles Hetru, Christine Kappler, Yoichi Nakatani, J. P. Beaucourt, Bernard Rousseau and Bang Luu — 291 — Synthesis of a labelled putative precursor of ecdysone—II. [$^3H_4$]3β-hydroxy-5β-cholest-7-en-6-one: critical re-evaluation of its role in *Locusta migratoria*

D. J. Colgan — 303 — Developmental changes of isoenzymes catalysing glycolytic and associated reactions in *Locusta migratoria* in relation to the rearing density of hatchlings

Godwin P. Kaaya, Casper Flyg and Hans G. Boman — 309 — Insect immunity. Induction of cecropin and attacin-like antibacterial factors in the haemolymph of *Glossina morsitans morsitans*

Hiroko Kasuga, Toshiro Aigaki and Minoru Osanai	317	System for supply of free arginine in the spermatophore of *Bombyx mori*. Arginine-liberating activities of contents of male reproductive glands
Toshiro Aigaki, Hiroko Kasuga and Minoru Osanai	323	A specific endopeptidase, BAEE esterase, in the glandula prostatica of the male reproductive system of the silkworm, *Bombyx mori*
Amador Haro, Jose L. Garcia, Nieves Olmo and Angel M. Municio	329	A natural non-protein low molecular weight cAMP-dependent protein kinase inhibitor from the insect *Ceratitis capitata*. Isolation and preliminary characterization
Michael J. Grodowitz, Alberto B. Broce and Karl J. Kramer	335	Morphology and biochemical composition of mineralized granules from the Malpighian tubules of *Musca autumnalis* De Geer larvae (Diptera: Muscidae)
Hisaaki Tsumuki, Robert R. Rojas, Kenneth B. Storey and John G. Baust	347	The fate of [^{14}C]glucose during cold-hardening in *Eurosta solidaginis* (Fitch)
H. Imboden, R. König, P. Ott, A. Lustig, U. Kämpfer and B. Lanzrein	353	Characterization of the native vitellogenin and vitellin of the cockroach, *Nauphoeta cinerea*, and comparison with other species
Hidenori Kai, Takashi Kawai and Yusuke Kawai	367	A time-interval activation of esterase A4 by cold. Relation to the termination of embryonic diapause in the silkworm *Bombyx mori*
Maria Rudnicka and Davy Jones	373	Characterization of homogeneous juvenile hormone esterase from larvae of *Trichoplusia ni*
P. J. Morgan, K. J. Siegert and W. Mordue	383	Preliminary characterisation of locust diuretic peptide (DP-1) and another corpus cardiacum peptide (LCCP)
Announcement	i	

Vol. 17, *No.* 3

István Ujváry, Kiyoshi Hiruma, Lynn M. Riddiford, Gyorgy Matolcsy, Craig R. Roseland and Karl J. Kramer	389	Role of β-alanine in pupal cuticle coloration in the tobacco hornworm, *Manduca sexta*. Effects of β-alanine analogues on melanization and catecholamine levels
Guy della-Cioppa and Franz Engelmann	401	The vitellogenin of *Leucophaea maderae*. Synthesis as a large phosphorylated precursor
Stephen G. Miller	417	Association of a sperm-specific protein with the mitochondrial F_1F_0-ATPase in *Heliothis*. Implications for sterility of *H. virescens* × *H. subflexa* backcross hybrids
Wayne S. Skinner, Gary B. Quistad, Michael E. Adams and David A. Schooley	433	Metabolic degradation of the peptide periplanetin CC-2 in the cockroach, *Periplaneta americana*
N. E. Beckage, T. J. Templeton, B. D. Nielsen, D. I. Cook and D. B. Stoltz	439	Parasitism-induced hemolymph polypeptides in *Manduca sexta* (L.) larvae parasitized by the braconid wasp *Cotesia congregata* (Say)
Diana L. Cox and Judith H. Willis	457	Analysis of the cuticular proteins of *Hyalophora cecropia* with two dimensional electrophoresis
Diana L. Cox and Judith H. Willis	469	Post-translational modifications of the cuticular proteins of *Hyalophora cecropia* from different anatomical regions and metamorphic stages
Diana L. Cox	485	Analysis of the cuticular proteins of *Hyalophora cecropia* with polyclonal antibodies
Maria Luiza S. Mello, E. R. Pimentel, A. T. Yamada and A. Storopoli-Neto	493	Composition and structure of the froth of the spittlebug, *Deois* sp.
J. V. Racioppi and A. Spielman	503	Secretory proteins from the salivary glands of adult *Aedes aegypti* mosquitoes

Vol. 17, *No.* 4

Victor M. Castro, Hans G. Boman and Sten Hammarström	513	Isolation and characterization of a group of isolectins with galactose/*N*-acetylgalactosamine specificity from hemolymph of the giant silk moth *Hyalophora cecropia*

T. T. Ilenchuk and K. G. Davey 525 The development of responsiveness to juvenile hormone in the follicle cells of *Rhodnius prolixus*

Eriko Nagao, Noriko Takahashi and Haruo Chino 531 Asparagine-linked oligosaccharides of locust lipophorin

Leslie S. Indrasith, Toshiharu Furusawa, Masayoshi Shikata and Okitsugu Yamashita 539 Limited degradation of vitellin and egg-specific protein in *Bombyx* eggs during embryogenesis

Tamo Fukamizo and Karl J. Kramer 547 Effect of 20-hydroxyecdysone on chitinase and β-*N*-acetylglucosaminidase during the larval–pupal transformation of *Manduca sexta* (L.)

Glenn D. Prestwich, Steven Robles, Czeslaw Wawrzeńczyk and Adrian Bühler 551 Hemolymph juvenile hormone binding proteins of lepidopterous larvae. Enantiomeric selectivity and photoaffinity labeling

Subba Reddy Palli and Michael Locke 561 The synthesis of hemolymph proteins by the larval midgut of an insect *Calpodes ethlius* (Lepidoptera: Hesperiidae)

P. S. Whitton, R. H. C. Strang and R. A. Nicholson 573 The distribution of taurine in the tissues of some species of insects

V. Dombrádi, V. Risnik, F. Erdödi, G. Bot and P. Friedrich 579 Regulation of phosphorylase kinase in *Drosophila melanogaster*

H. J. Notman and R. G. H. Downer 587 Binding of [^{3}H]pifluthixol, a dopamine antagonist, in the brain of the American cockroach, *Periplaneta americana*

B. Duff Sloley and R. G. H. Downer 591 Dopamine, *N*-acetyldopamine and dopamine-3-*O*-sulphate in tissues of newly ecdysed and fully tanned adult cockroaches (*Periplaneta americana*)

Georgia Stephanou 597 On the control of heat shock protein synthesis in *Drosophila melanogaster* and *Ceratitis capitata*

Aparna Ray, Nancy A. Memmel, Randal P. Orchekowski and A. Krishna Kumaran 603 Isolation of two cDNA clones coding for larval hemolymph proteins of *Galleria mellonella*

Costas G. Psarianos, Maria Lampropoulou and Vassilis J. Marmaras 619 Alkaline phosphatase in the integument of *Ceratitis capitata*. Developmental profile and functional properties

P. J. Skelly and A. J. Howells 625 Larval cuticle proteins of *Lucilia cuprina*. Electrophoretic separation, quantification and developmental changes

P. Santoro and G. Parisi 635 Biosynthesis of dihydroxanthommatin. *In vitro* enzymatic reduction of xanthommatin

Erratum i

Vol. 17, *No.* 5

Mini-Review

Larry L. Keeley and Timothy K. Hayes 639 Speculations on biotechnology applications for insect neuroendocrine research

General Papers

Mohamed Bey Baba Hamed and Joseph Attias 653 Isolation and partial characterization of two alkaline proteases of the greater wax moth *Galleria mellonella* (L.)

P. Willadsen, R. V. McKenna and G. A. Riding 659 Purification and characterisation of an esterase from the tick *Boophilus microplus*

Suresh D. Mane, Richard C. Essenberg and John R. Sauer 665 Kinetics of the phosphotransferase reaction of the catalytic subunit of the tick salivary gland cAMP-dependent protein kinase

Robert J. Weaver and Richard N. Pau 673 Absence of sequential or cyclic synthesis of oothecal iso-proteins during the reproductive cycle of female *Periplaneta americana*

Anthony J. Nappi, Bruce M. Christensen and James W. Tracy	685	Quantitative analysis of hemolymph monophenol oxidase activity in immune reactive *Aedes aegypti*
R. H. Davis and A. Nahrstedt	689	Biosynthesis of cyanogenic glucosides in butterflies and moths. Effective incorporation of 2-methylpropanenitrile and 2-methylbutanenitrile into linamarin and lotaustralian by *Zygaena* and *Heliconius* species (Lepidoptera)
S. H. Vaandrager, W. J. A. Van Marrewijk and A. M. Th. Beenakkers	695	Kinetic properties of glycogen phosphorylases *a*, *ab* and *b* from flight muscles of the locust, *Locusta migratoria*
Isao Morishima	701	Changes in calmodulin levels during development of the silkworm, *Bombyx mori*
Karl J. Siegert and William Mordue	705	Breakdown of locust adipokinetic hormone I by Malpighian tubules of *Schistocerca gregaria*
Subba Reddy Palli and Michael Locke	711	The synthesis of hemolymph proteins by the larval epidermis of an insect *Calpodes ethlius* (Lepidoptera: Hesperiidae)
Michael D. Owen, Laurie Pfaff and B. Duff Sloley	723	The absence of diel change in the concentrations of dopamine, 5-hydroxytryptamine and their metabolites in the cerebral ganglia of the cockroach, *Periplaneta americana*
Bruce J. Cochrane, Joseph J. Morrissey and Gerald A. LeBlanc	731	The genetics of xenobiotic metabolism in *Drosophila*—IV. Purification and characterization of the major glutathione S-transferase
Jean-Jacques Lenoir-Rousseaux and Jean Gautron	739	Activity, localization and molecular form of acetylcholinesterase in the male accessory glands of metamorphosing *Tenebrio molitor* L.
J. P. Woodring and Thomas C. Sparks	751	Juvenile hormone esterase activity in the plasma and body tissue during the larval and adult stages of the house cricket
Richard W. Wadleigh and Simon J. Yu	759	Glutathione transferase activity of fall armyworm larvae toward α, β-unsaturated carbonyl allelochemicals and its induction by allelochemicals
Pnina Moshitzky, D. Yamashiro, Laura Stuve, J. Ramachandran and S. W. Applebaum	765	Determination of locust AKH-I by radioimmunoassay and the identification of an AKH-like factor in the locust brain
M. C. Van Heusden, D. J. Van der Horst, J. Voshol and A. M. Th. Beenakkers	771	The recycling of protein components of the flight-specific lipophorin in *Locusta migratoria*

Vol. 17, *No.* 6

Leng-Hong Teo, Howard W. Fescemyer, J. P. Woodring and Abner M. Hammond	777	Carbohydrate and fatty acid titres during flight of the migrant noctuid moth, *Anticarsia gemmatalis* Hübner
Robert L. Tilden and Stephen M. Ferkovich	783	Regulation of protein synthesis during egg development of the parasitic wasp, *Microplitis croceipes* (Cresson) (Braconidae)
M. C. Van der Westhuizen, P. H. Hewitt and T. C. de K. Van der Linde	793	Physiological changes during colony establishment in the termite *Hodotermes mossambicus* (Hagen): Energy reserves—neutral lipids and glycogen
D. J. Van der Horst, A. M. Th. Beenakkers, J. M. Van Doorn, K. Ferritse and T. K. F. Schulz	799	Adipokinetic hormone-induced lipid mobilization and lipophorin interconversions in fifth larval instar locusts
F. P. Espinoza-Fuentes and Walter R. Terra	809	Physiological adaptations for digesting bacteria. Water fluxes and distribution of digestive enzymes in *Musca domestica* larval midgut
F. P. Espinoza-Fuentes, Alberto F. Ribeiro and Walter R. Terra	819	Microvillar and secreted digestive enzymes from *Musca domestica* larvae. Subcellular fractionation of midgut cells with electron microscopy monitoring
Harold G. Fife, Subba Reddy Palli and Michael Locke	829	A function for pericardial cells in an insect
Detlef Bückmann and Albin Maisch	841	Extraction and partial purification of the pupal melanization reducing factor (PMRF) from *Inachis io* (Lepidoptera)
Peter C. Kulakosky and William H. Telfer	845	Selective endocytosis, *in vitro*, by ovarian follicles from *Hyalophora cecropia*

Frank Schneider, Jon G. Houseman and P. E. Morrison	859	Activity cycles and the regulation of digestive proteases in the posterior midgut of *Stomoxys calcitrans* (L.) (Diptera: Muscidae)
A. Ragab, C. Bitsch, J. M. F. Thomas, J. Bitsch and H. Chap	863	Lipoxygenase conversion of arachidonic acid in males and inseminated females of the firebrat, *Thermobia domestica* (Thysanura)
Jean-Luc Dimarco, Elfie Walcher and Marie F. Meister	871	Conversion studies of tritiated 2-deoxyecdysone during the embryonic development of *Locusta migratoria*
E. Dunkelblum and M. Kehat	877	Sex pheromone precursors in *Spodoptera littoralis* (Lepidoptera: Noctuidae)
Kent S. Shelbey, John A. Bantle and John R. Sauer	883	Biochemical differentiation of lone star tick, *Amblyomma americanum* (L.) salivary glands: effects of attachment feeding and mating
S. Turunen and S. Pärnänen	891	Eicosapentaenoic acid: incorporation into phosphatidylinositol and other lipids in *Pieris brassicae*
Grace Jones, Davy Jones and Shivanand Hiremath	897	An *in vitro* system for studying juvenile hormone induction of juvenile hormone esterase from the fat body of *Trichoplusia ni* (Hübner)
W. H. O. Ernst and M. B. M. Sekhwela	905	The chemical composition of lerps from the mopane psyllid *Arytaina mopane* (Homoptera, psyllidae)
Ma Luo and Robert P. Bodnaryk	911	Synaptosomes and synaptosome membrane vesicles from the brain of *Mamestra configurata*: application to voltage-dependent and ATP-dependent Ca^{2+} ion transport studies
D. V. Mukha, A. A. Kramerov and V. A. Gvozdev	919	Nascent glycoproteins with a chitin-like carbohydrate component in *Drosophila melanogaster* imaginal discs
Announcement	i	

Vol. 17, *No.* 7

FOURTH INTERNATIONAL SYMPOSIUM ON JUVENILE HORMONES: PHYSIOLOGY, BIOCHEMISTRY AND CHEMISTRY

J. C. Baehr, J. Casas, A. Messeguer, P. Pradelles and J. Grassi	929	Enzyme immunoassays of JH III and JH III diol using acetylcholinesterase as tracer: an alternative to radioimmunoassay
G. Bhaskaran, K. H. Dahm, G. L. Jones, K. Peck and S. Faught	933	Juvenile hormone acid synthesis and HMG–CoA reductase activity in corpora allata of *Manduca sexta* prepupae
R. Feyereisen and D. E. Farnsworth	939	Comparison of the inhibitory effects of brain extract, high K^+ and forskolin on juvenile hormone synthesis by *Diploptera punctata* corpora allata
Dorothy B. Rountree, Wendell L. Combest and Lawrence I. Gilbert	943	Protein phosphorylation in the prothoracic glands as a cellular model for juvenile hormone–prothoracicotropic hormone interactions
N. A. Granger, L. R. Whisenton, W. P. Janzen and W. E. Bollenbacher	949	Interendocrine control by 20-hydroxyecdysone of the corpora allata of *Manduca sexta*
R. Douglas Watson, Noriaki Agui, Mary E. Haire and Walter E. Bollenbacher	955	Juvenile hormone coordinates the regulation of the hemolymph ecdysteroid titer during pupal commitment in *Manduca sexta*
C. R. Paulson, B. Stay, S. Kikukawa and S. S. Tobe	961	*In vitro* inhibition of the corpora allata by a larval brain factor in the cockroach *Diploptera punctata*
R. R. Aucoin, S. M. Rankin, B. Stay and S. S. Tobe	965	Calcium and cyclic AMP involvement in the regulation of juvenile hormone biosynthesis in *Diploptera punctata*
R. Wilhelm, R. Riechsteiner and B. Lanzrein	971	On the competence of corpora allata to synthesise juvenile hormone and the dependence of their activity on haemolymph factors in the cockroach, *Nauphoeta cinerea*
J. Girardie, D. Boureme, F. Couillaud, M. Tamarelle and A. Girardie	977	Anti-juvenile effect of neuroparsin A, a neuroprotein isolated from locust corpora cardiaca

C. A. D. de Kort, M. A. Khan and A. B. Koopmanschap	985	Juvenile hormone and the control of adult diapause in the Colorado potato beetle, *Leptinotarsa decemlineata*
Fred C. Baker, Leslie W. Tsai, Carol C. Reuter and David A. Schooley	989	*In vivo* fluctuation of JH, JH acid, and ecdysteroid titer, and JH esterase activity, during development of fifth stadium *Manduca sexta*
Heinz Rembold and František Sehnal	997	Juvenile hormones and their titer regulation in *Galleria mellonella*
Heinz Rembold	1003	Caste specific modulation of juvenile hormone titers in *Apis mellifera*
X. Bellés, J. Casas, A. Messeguer and M. D. Piulachs	1007	*In vitro* biosynthesis of JH III by the corpora allata of adult females of *Blattella germanica* (L)
Thomas C. Sparks, R. Michael Roe, Adrian Buehler and Bruce D. Hammock	1011	The evaluation of anti juvenile hormones using last stadium larvae of the cabbage looper, *Trichoplusia ni* (Hübner)
Glenn Croston, Yehia A. I. Abdel-Aal, Shirley J. Gee and Bruce D. Hammock	1017	Activation of crude and homogeneous juvenile hormone esterases by organic solvents
R. Michael Roe, Catherine L. Crawford, Craig W. Clifford, J. P. Woodring, Thomas C. Sparks and Bruce D. Hammock	1023	Role of juvenile hormone metabolism during embryogenesis of the house cricket, *Acheta domesticus*
John K. Koeppe, Richard C. Rayne, Eric A. Whitsel and Margaret E. Pooler	1027	Synthesis and secretion of juvenile hormone binding protein by fat body from the cockroach *Leucophaea maderae*: protein A immunoassay
G. D. Prestwich, W.-S. Eng, M. F. Boehm and C. Wawrzeńczyk	1033	High specific activity tritium- and iodine-labeled JH homologs and analogs for receptor binding studies
Lynn M. Riddiford, Ellie O. Osir, Catherine M. Fittinghoff and Janell M. Green	1039	Juvenile hormone analog binding in *Manduca* epidermis
Franz Engelmann, Jaroslava Mala and Stephen S. Tobe	1045	Cytosolic and nuclear receptors for juvenile hormone in fat bodies of *Leucophaea maderae*
A. Krishna Kumaran, Aparna Ray, Jack A. Tertadian and Nancy A. Memmel	1053	Effects of juvenile hormone, ecdysteroids and nutrition on larval hemolymph protein gene expression in *Galleria mellonella*
Qi-Hui Zhai, Jian-Zhong Zhang and He Gong	1059	Regulation of vitellogenin synthesis by juvenile hormone analogue in *Coccinella septempunctata*
Walter G. Goodman, Greg Tatham, Dorothy J. Nesbit, Hermann Bultmann and Robin D. Sutton	1065	The role of juvenile hormone in endocrine control of pigmentation in *Manduca sexta*
Gerard R. Wyatt, Kathryn E. Cook, Helen Firko and T. S. Dhadialla	1071	Juvenile hormone action on locust fat body
Richard N. Pau	1075	Characterization of juvenile hormone-regulated cockroach oothecin genes
Gregory Mitchell Kelly and Erwin Huebner	1079	Juvenoid effects on *Rhodnius prolixus* embryogenesis
T. T. Ilenchuk and K. G. Davey	1085	Effects of various compounds on Na/K-ATPase activity, JH I binding capacity and patency response in follicles of *Rhodnius prolixus*
Thomas J. Kelly, T. S. Adams, Margaret B. Schwartz, Mark J. Birnbaum, Elaine C. Rubenstein and Richard B. Imberski	1089	Juvenile hormone and ovarian maturation in the Diptera: a review of recent results
Teresa Martinez and Henry H. Hagedorn	1095	Development of responsiveness to hormones after a blood meal in the mosquito *Aedes aegypti*
Werner Loher, David A. Schooley and Fred C. Baker	1099	Influence of the ovaries on JH titer in *Teleogryllus commodus*

KAREL SLÁMA	1103	Effect of juvenile hormone on the autonomic nervous system
M. P. PENER and U. SHALOM	1109	Endocrine manipulations, juvenile hormone and ontogenesis of male sexual behaviour in locusts
J. P. EDWARDS, J. CHAMBERS, N. R. PRICE and J. P. G. WILKINS	1115	Action of a juvenile hormone analogue on the activity of *Periplaneta americana* corpora allata *in vitro* and on juvenile hormone III levels *in vivo*
HANS-JÖRG FERENZ and MARTIN G. PETER	1119	The inhibitory effect of sinefungin on juvenile hormone biosynthesis and development in locusts
DAVID W. BORST, HANS LAUFER, MATTHEW LANDAU, ERNEST S. CHANG, WILLIAM A. HERTZ, FRED C. BAKER and DAVID A. SCHOOLEY	1123	Methyl farnesoate and its role in crustacean reproduction and development
HANS LAUFER, MATTHEW LANDAU, ELLEN HOMOLA and DAVID W. BORST	1129	Methyl farnesoate: its site of synthesis and regulation of secretion in a juvenile crustacean

Vol. 17, *No.* 8

P. MOSHITZKY, W. J. HENZEL, A. RAFAELI, J. RAMACHANDRAN and S. W. APPLEBAUM	1133	Synthesis of adipokinetic hormone (AKH-I) in the locust brain
KOZO TSUCHIDA, SARVAMANGALA V. PRASAD and MICHAEL A. WELLS	1139	Changes in lipophorin composition during the fourth to fifth instar molt of *Manduca sexta*
WALTER R. TERRA, AGNALDO VALENTIN and CUSTÓDIO D. SANTOS	1143	Utilization of sugars, hemicellulose, starch, protein, fat and minerals by *Erinnyis ello* larvae and the digestive role of their midgut hydrolases
LISA B. YOCUM, DAVID L. DENLINGER, NANCY E. KATLIC, ROBERT W. BRUEGGEMEIER and RAPHAEL MECHOULAM	1149	A development profile of estrogen and androgen radioimmunoactive substances in the flesh fly, *Sarcophaga crassipalpis*
MOHAMED KABBOUH, CHRISTINE KAPPLER, CHARLES HETRU and FRANCIS DURST	1155	Further characterization of the 2-deoxyecdysome C-2 hydroxylase from *Locusta migratoria*
THOMAS R. FUERST, DOUGLAS C. KNIPPLE and ROSS J. MACINTYRE	1163	Purification and characterization of β-galactosidase-1 from *Drosophila melanogaster*
K. VENKATESH, C. J. LENZ, D. K. BERGMAN and G. M. CHIPPENDALE	1173	Synthesis and release of lipophorin in larvae of the southwestern corn borer, *Diatraea grandiosella*: an *in vitro* study
MAVIS R. SWERDEL and ANN MARIE FALLON	1181	Phosphoribosylation of xanthine by extracts from insect cells
PATRICK J. DIMARIO, THOMAS G. WARREN and ANTHONY P. MAHOWALD	1187	The purification and *in vitro* phosphorylation of vitellogenin from *Drosophila melanogaster*
ULLA KLEIN	1193	Sensillum-lymph proteins from antennal olfactory hairs of the moth *Antheraea polyphemus* (Saturniidae)
